I have no clue why the follow up is about manganese. Based on the email chain, it seems like OCIR is a little confused about all of it too. I've asked for a little more clarification on what exactly they want, but haven't heard back yet.

Why are we talking about Manganese? I thought we were focusing on EtO?

Hey Lou – AA Wheeler had a call with Senators Durbin and Duckworth earlier this week, and there are some follow up questions. I think #2 is OW, but wanted to check to see if it could potentially be something IRIS related. And #3 is related to IRIS, yes? Can also check with Tina.

Hi Sven and Pat,

Apologize for this, but I am not 100% sure which lane this will fall into so I have a couple questions below on completing these letters and follow ups from the call. Let me know how we move forward.
